PROPOSED IEEE MOST 2027 WORKSHOP

D-CAPS 2027

Call for papers

International Workshop on Data, Computing, and Communication Infrastructure for Autonomous Physical Systems

Sunday, April 4, 2027 · Cal Poly Pomona, Pomona, California · with IEEE MOST 2027

PAPER SUBMISSION

February 12, 2027

Proposed deadline

AUTHOR NOTIFICATION

February 28, 2027

Camera-ready deadline to be confirmed

Topics and submissions

We invite foundational research, prototypes, measurements, and deployment studies on data, computing, communication, and sensing infrastructure for autonomous physical systems, including AI/ML infrastructure, systems integration, orchestration, interoperability, dependability, and testbeds. Submit up to six pages, including references, in IEEE double-column format. Review is single-blind. Include author names and affiliations. Accepted papers appear in the IEEE MOST 2027 proceedings and are submitted to IEEE Xplore.

Workshop co-chairs

Qiang Liu
University of Nebraska–Lincoln
qiang.liu@unl.edu

Nakjung Choi
Nokia Bell Labs
nakjung.choi@nokia-bell-labs.com

Steering committee

Weisong Shi
University of Delaware

Onur Altintas
Head of InfoTech Labs, Toyota North America R&D
